Notes:

- About Columbia Points: The points in light gray are not added into Completed Columbia Points. These points have only a billing purpose or represent classes that are not completed yet.
- About GPA: Not all Columbia schools display the GPA on this page. GPA, Grade Point Average, is calculated as a weighted average where the weights are values assigned to each grade, see Grade Value column. The formula used:  $GPA = \frac{\text{sum}(\text{Grade Value} * \text{Points})}{\text{sum}(\text{Points})}$ . The classes for which you do not see a grade value are not calculated into GPA. Depending on the grading system of the school, the grade values can vary from [0-4.00], [0-4.33] or [0-10.00]. The sign --- indicates that there are no grades to calculate the GPA.
